

Winter greetings from all of us at Twin Lakes Marina,

This winter has had more snow, ice, and extreme temperature swings than many of us can ever remember. The winter weather makes us look forward to spring: sunny days, warm weather, and open water – can't wait!!!

There is one thing that winter is good for and that is great savings on all carry-over and demo boats remaining in stock. Below you will find the pictures of the boats available with the discounted winter pricing. The price includes storage until spring and free summarization so that your boat will be ready for the boating season. If you are looking for a great deal, check out these boats and buy today. More pictures and information can be found at our website: www.tlmarina.com.
